GENERAL CATALOGUE

In this catalogue, tickets within each price band are sorted firstly into company (i.e., pre-grouping and pre-nationalisation), then British Railways regional order (i.e., Northern, Eastern, London Midland, Scottish, Southern and Western regions).

ORDERING GUIDELINES

Tickets from this catalogue will be processed on a '**First Come, First Served**' automated basis. To give you the best chance of securing the tickets you want, use the online facility (using your email address and password), which many of you are now familiar with. Once an order has been submitted online, the system will inform you which tickets are available instantly. You can submit further orders from the same catalogue, which gives you the flexibility of ordering second choice tickets. Orders will be processed within three working days. Payment processes can be via: PayPal; Credit/Debit Cards (WorldPay Pay by Link); bank transfer or cheque.
We will continue to process orders received via email/telephone/post as soon as possible.

All tickets offered in this catalogue are in at least "very good" condition unless otherwise stated in the legend (see below).

LEGEND **A:** indicates ticket is unissued and has originated from an Audit Office
C: indicates ticket is creased **F:** indicates ticket is faded
G: indicates ticket is grubby or soiled **M:** indicates ticket has been mounted

A further Edmondson has come to light from the at the time named 'Sealink British Ferries'. This is a light orange return issue from Holyhead to Dun Laoghaire with a serial of 2467, 'Outlet 0930' S3005 and dated July 1987. The fare in manuscript is £48.00. Although creased this is a fine addition to the modern Edmondson collection.

Back to **PAIGNTON** now and continuing with the beam issues. We are now at the up office and looking at the last GWR issues from here. there are four colours dark pink, mustard and 2 shades of brown. Onto the first B.R. issue now which although a beam looks like a much later AA. Next is a standard beam, a Railway Executive title and conditions along with a date in pencil which is 01-07-1954. We move onto another R.E. titled in a bigger type face and with BTC conditions. Finally 2 BTC 1d's are held both in a different typeface and upper and lower case.

Onto **WARMINSTER** next featuring a nice little batch of issues. This station only started to issue in the 1950's. that is there were no Southern Railway issues. Perhaps this station fell into the group of former Southern stations which started to issue due to boundary and accountancy changes. On the other hand Warminster was perhaps a little too far east to be part of this scheme. Maybe this could be clarified by someone? We start with a R.E. with the name at the bottom, next a B.R.1d, but with BTC conditions, dated 27-04-1957 with a serial of 1988. Next a BTC 2d dated 01-09-1958 with a serial of 2704. We feature 3 further BTC 2d issues and all different. The first has a serial of 3012 and dated 17-10-1959, followed by serial 3691, dated 12-03-1963. The final 2d issue has a serial of 4112 and is undated. Now onto a BRB 3d issue with a serial of 2833 and validated by the NCR21 31-10-1970. Quite a gap between 4112 and 2833 which shows that many were issued. To 18-09-1971 now and an unpriced red diamond, serial 3863 with similar from 1972, except that a series 0 has appeared just to the left of the serial numbers.

TICKETS PRICED AS INDICATED
