THEME CATALOGUE

In this catalogue, tickets within each price band are sorted firstly into company (i.e., pre-grouping and pre-nationalisation), then British Railways regional order (i.e., Northern, Eastern, London Midland, Scottish, Southern and Western regions).

ORDERING GUIDELINES

Tickets from this catalogue will be processed on a '**First Come, First Served**' automated basis. To give you the best chance of securing the tickets you want, use the online facility (using your email address and password), which many of you are now familiar with. Once an order has been submitted online, the system will inform you which tickets are available instantly. You can submit further orders from the same catalogue, which gives you the flexibility of ordering second choice tickets. Orders will be processed within three working days. Payment processes can be via: PayPal; Credit/Debit Cards (WorldPay Pay by Link); bank transfer or cheque.
We will continue to process orders received via email/telephone/post as soon as possible.

All tickets offered in this catalogue are in at least "very good" condition unless otherwise stated in the legend (see below).

LEGEND **A:** indicates ticket is unissued and has originated from an Audit Office
C: indicates ticket is creased **F:** indicates ticket is faded
G: indicates ticket is grubby or soiled **M:** indicates ticket has been mounted

Finishing off with **SEATON JUNCTION** we move onto a BTC 2d issue, dated 30-04-1962 with a serial of 3836. A different printing of this is next, along with different conditions and a strong serial of 4269, these platform tickets were certainly issued well here. Anyway the final issue held is a BTC(W) with BRB conditions, undated and a serial of 0000, not sure if was ever a BRB 3d issue from here, there might well have been but audit? There are major remains of the station and trains charge though on a single track at high speed. The station is in a rural area to this day, however the newish X30 double decker bus enroute from Seaton to Exeter passes by here 3 times a day SX, helping to identify the area. The Seaton Tramway is within a few miles, along the old branch of course, although there are no remains at the junction end as these have reclaimed by agriculture.
I was pleased to receive a couple of scans of 2 further stations in East Devon, one I mentioned recently and the other had slipped my mind entirely. The first is from **CRANBROOK**, the site of a new town to the east of Exeter. This opened on December 13th 2013 and is a brown Edmondson with a red diamond and conditions on the rear. The NLC IS 9850 and the printer Michael Farr, serial 0304. The other one is **EASTCOURT** which is a newish station of the Exmouth branch, north of Topsham but south south of Digby & Sowton. This one is white card, black text with a red diamond, serial 0108. There is an NLC of 9589 and the printer is Michael Farr again. These issues further enrich the issuing history of this line/branch, so keep your eyes open for them, although it has to be said that they are both scarce.
Will now have a look at issues from **HAYES & HARLINGTON** a busy station on the Great Western Main Line in West London, it is also the junction for heavy rail to Heathrow Airport with various connections etc. and is well served by the Elizabeth Line to boot. There were 2 pull-bar machines A & B. However an undefined GWR type 2 is held, cream, with black text and red name, undated.
